[C2G 83315 networking cable Black 1 m Cat5e U/UTP \(UTP\):](#)

Product Description

This Cat5e network crossover patch cable is an ideal solution for connecting two computer to share files or data. The crossed pin configuration allows two computers to be connected peer-to-peer without the need for a hub or switch. This cable may also be used to connect network switches and hubs without an uplink port to other switches and hubs. This cable is constructed to meet all Cat5e TIA/EIA standards, and has been designed to drastically reduce both impedance and structural return loss (SRL). Each of the individual pairs is bonded together to help maintain the twist-spacing throughout the line right up to the termination point. Constructed from high quality cable and a shortened body plug, this design minimises Near-End Crosstalk (NEXT) levels.
