

CA1010 USB-C to USB-A M/F Adapter

Connectivity with no sacrifice in performance

K33477WW

Product Description

Connectivity between older USB-A and newer USB-C devices often comes at the expense of the full benefits of USB-C, such as fast data transfer and high-speed charging capabilities. With the CA1010 USB-C to USB-A M/F Adapter, users can enjoy device compatibility with no sacrifice in performance. Users with older USB-A devices (mice, keyboards, thumb drives, headphones, charging cables etc.) can connect with their newer USB-C devices (laptops, wall chargers etc.), with support for performance features including high-speed data transfer and up to 3 Amp Fast Charging. It's a simple plug-and-play solution with the premium construction and warranty support users expect from Kensington.

Features

- Simple USB-C to USB-A M/F Connectivity provides easy connection between USB-A devices and newer USB-C devices - without losing important usability features.
- Extensive Compatibility works seamlessly with a wide range of devices and operating systems (Lightning-based iPhones supported when using a Lightning to USB-A cable).
- Plug & Play installation with no need for an additional power source or driver downloads.
- Super-Fast Data Transfer supports speeds up to 5Gbps - 10 times faster than USB 2.0.
- Supports up to 3A Fast Charging - up to 5V/3A charging capability depending on host device.
- Premium Construction features halogen-free material and durable metal-injection moulded connector.
- Two-year limited warranty gives users peace-of-mind knowing they're covered by Kensington reliability.
