Description

The equip® 19" Rack Mount Cable Management Panel with 5 cable rings is an essential organizational accessory for data centers and server rooms. Designed to fit standard 19-inch racks, it provides an efficient solution for managing and routing cables neatly.

The panel features five cable rings, which securely hold and organize cables, preventing tangling and maintaining a tidy rack setup. This promotes better airflow, reducing the risk of overheating and simplifying maintenance tasks.

With its durable construction and easy installation, this cable management panel ensures a cleaner, more organized, and easily maintainable rack infrastructure.
