SmartPens4U

Thank you for buying RocketPen Reader from SmartPens4U.

RocketPen Reader is designed to be a reading assistant, and our goal is to make you an independent reader. Whether you need to read exam questions, do your homework, or simply want to read your favorite novel, we hope reading becomes less challenging and more enjoyable for you. RocketPen Reader also supports literacy. The embedded dictionaries make understanding so much easier, faster, and more convenient.
RocketPen Reader is a stand-alone and self-contained product and works without being connected to any other device or network.

For technical specification and further information regarding additional features, supported languages, upgradability, battery, etc., please see:

www.smartpens4u.com

RocketPen Parts

1 – Power On/Off
Press 3 seconds to power device on or off. Press briefly to return from power-saving mode.

2 – Volume down button

3 – Volume up button

3

Getting started:

Press and hold the power button for about 3 seconds. When the RocketPen Reader logo appears, release the button. After that, a logo animation should run, followed by the main menu:

(Note: If the display does not light up, charge the device for about 30 minutes).

SmartRead application

1. Press the SmartRead application. A **Definition Dictionary** window appears.

Your selection becomes the default dictionary. For changing the default, see SmartRead Settings ⚙. If there is more than one bilingual dictionary with the same source language, **Bilingual Dictionary** selection window appears.

2. Once a dictionary was selected, "Ready to Scan with:…" screen appears:

4

Blue Marker

3. Hold the pen on a printed text, press down gently, and start moving from left to right. Lift the pen from the paper to finish scanning.
Please scan the following line:

I discover the joy of reading

Swipe the screen left to see the end of the scanned line. For scanning from right to left, see **RocketPen Settings**.

4. Press the word "discover", and action screen appears:

5. Action screen buttons:

Definition
View the English definition of the word. See definition screen below.

Syllabicate
View the syllabic division of the word:

Note: not available in some dictionaries.

Translation
Translate the word.
Note: not available for some languages.
Spell out
Hear the word spelled out.

Note: Greyed-out buttons indicate that the function is not available for the specific word, phrase, language or dictionary.

6. Press the required action: Definition, Syllabication, Translation or Spell out.

At any stage pressing the back button will move to previous screen.

Note: Pressing the play button will read the scanned/selected word or sentence aloud.
