

Optima Light Touch Joystick

Part code: M-OPJ

Joystick mouse with recessed buttons – USB / PS2

Description

The Optima Joystick is a compact, desktop joystick that does not require fine motor skills and is suitable for a wide spectrum of computer users. The Optima Joystick is specifically designed for cursor movement to respond to the lightest touch (0.5 Newtons) for accurate, cursor navigation and precise targeting of objects on the computer screen. The Optima Joystick also features a low profile providing a natural hand rest for comfortable operation, and will work with PS2 and USB compatible computers.

Features

- Robust Construction and Ergonomic Design.
- Light touch joystick movement (0.5 Newtons).
- Precise tracking and cursor control.
- Four Cursor speed settings (With Audible Alert).
- Low profile providing a natural hand rest for comfortable operation.
- Left/Right and Drag Lock buttons.
- Colour coded buttons mounted sub-flush to prevent accidental activation.
- Sockets to operate Left/Right click buttons from remote switches.
- Easy 'plug and play' installation (no additional drivers required).
- Auto detecting PS2 and USB protocols.
