

FirestormLite® 2.5" 7mm SSD

FirestormLite 2.5" 7mm SSDs **enhance performance and increase the speed of your machine.** With ultra-fast boot times, quicker application load times and lower power consumption- FirestormLite technology instantly improves the reliability of your device.

Fast, Cost- Effective Storage

With speeds up to 4 times faster than Hard Disk Drives (HDDs), Solid-State Drives (SSDs) are currently **the fastest and most cost effective form of storage available.** Providing your system with a massive boost in application, OS load times, data-transfer and overall system responsiveness.

Higher Intensity from Less Power

Unlike traditional HDDs, SSDs have no moving parts; their lightning speed comes from flash memory chips. This makes them more **reliable, smaller, lighter and less power hungry than HDDs.**

An Upgrade to Fit Every Device

FirestormLite SSD's are **available in multiple form factors and capacities of up to 2TB.** Ideal for use in a range of devices including PCs, Laptops, Tablets, Smartphones, Digital Music Players and Cameras.

Need help finding the perfect match for your device?

FirestormLite SSDs can be **matched to your machine as an OEM compatible solution,** simply **click the Hypertec Configurator link** and search for your device by brand and model.

For more information about FirestormLite SSDs, or to find out how we can help you, speak to your Hypertec Account Manager today.

Features:

- ✓ 3 Year Warranty includes Free Lifetime Technical Support
- ✓ Matched options available
- ✓ Suitable for both client SSDs as well as NAND- cache drives
- ✓ Noise and vibration free for completely silent computing
- ✓ Zero moving parts prevent mechanical malfunctions and extended product life
- ✓ S.M.A.R.T self-monitoring attributes improve reliability
