

## Large Print Stickers – 4 versions

Part code: A-STW-SET

High Contrast keyboard stickers for all types of keyboard including laptops

### Description

High contrast keyboard stickers are a great way to quickly and cheaply improve the visibility of your keyboard. There are many different types and severity of vision impairment and by combining all the most effective variants in one pack you can choose whichever version seems most comfortable and effective for you.

The stickers are laminated with a plastic film to resist the effects of grease and sweat and increase their useful life.

For heavy duty use we recommend a manufactured high contrast keyboard.

Pack contains 4 sheets of stickers including; black on yellow, black on white, yellow on black, white on black.  
(keyboard not included)
