

Q-riser 50

The latest model

 BAKKER ELKHUIZEN

Work Smart - Feel Good

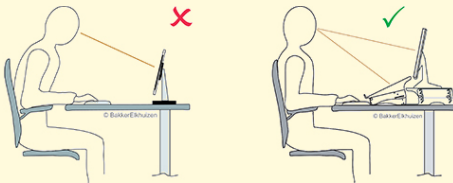

Adjust your screen to the correct viewing height

The Q-riser 50 and Q-riser 110 are the latest additions to BakkerElkhuizen's range of monitor stands.

Many people use large monitors these days, such as 24-inch models, the supports of which are considerably bigger and heavier.

BakkerElkhuizen BNEQR90 Monitor Stand Q-riser 90 We advise having a screen that can easily be adjusted and tilted so that every user can adjust its height.

Design: Dutch design & Made in Holland. A high-quality appearance.

Ergonomic: this stand enables you to obtain the correct working height easily.

Cable management: your monitor cord is neatly stowed.

Standard height: 5.5 cm. Perfect for flat-screen displays with their own integrated height-adjustable support.

Material: clear acrylate, this eight-millimetre-thick acrylate provides a sturdy and stable base.

Load capacity: maximum 16 kg.
