

Ergo-Top 320 Circular

Adjustable laptop stand

BakkerElkhuizen goes circular. With the Ergo-Top 320 circular laptop stand, we are introducing a sustainable version of our own acrylate product.

All characteristics of the original Ergo-Top 320 are preserved.

Using a notebook stand in combination with an external keyboard and mouse increases productivity by 17%.

It also significantly improves sitting posture. Neck strain is reduced by 32% and comfort is improved by 21% (Lindblad, 2002). The forearms are also in a more neutral position. Physical complaints are substantially reduced (Boersma, 2002).

We advise working no longer than two hours a day with a laptop unless it is combined with a notebook stand with an external keyboard and mouse.

Laptop stand made from plastic bottles, sustainable & ergonomic

BakkerElkhuizen goes circular. With the Ergo-Top 320 circular laptop stand, we are introducing a sustainable version of our own acrylate product. This laptop stand consists of compressed material made from recycled plastic bottles. By reusing plastic bottles, we are doing our part to reduce the amount of waste on land and in our oceans.

An overview of the benefits

Recycled material

Our Ergo-Top 320 Circular Laptop Stand consists of 60% recycled material (5 recycled PET bottles), but is completely recyclable!

Circular

Plastic bottles are collected and processed into 'flakes'. These are processed into 'granulate'. This granulate eventually becomes a PET felt board. If you no longer use your product, you can return it to us for recycling. In short, 100% circular.

Soft, yet strong!

Although the material appears soft, no compromises have been made for the required properties such as load-bearing capacity. These products are also very strong, just like acrylic!

Price

This sustainable product does not cost more than the acrylate version of the same product.

Colours

These products are available in different colors. We have light grey and green in our range as standard. We are happy to get in touch with you for other colors.

In-line working

As with the traditional Ergo-Top 320, this laptop stand can be adjusted to various heights. Users can choose between three heights, making it easier to position their laptop at the right height. Working with a laptop stand prevents physical discomfort. This is because you can position your laptop's display at the right viewing height and distance.

Knowledge Center

The laptop: now indispensable for office life as we know it. With work locations becoming ever more flexible, the laptop is an essential tool for working at home, at the office or on the move. ...
