Product Images

Short Description

1. 10/100/1000Mbps wire speed transmission and reception

2. USB 3.0 super speed (5Gb/s)
3. Built-in Wake-on-LAN feature to startup computers remotely
4. Multi-platform support: Windows, Mac OS, Chrome OS
5. Simple Plug and Play installation
6. Aluminum casing for heat dissipation

Description

The Conceptronic USB Hub and Gigabit Ethernet Combo Adapter allows you to connect to the internet easily through the built-in USB port on your laptop. This is an ideal solution for MacBook or other Windows computers that may have wireless built-in but don't come with an Ethernet port. The adapter also combines a regular USB hub. So you can connect external USB peripherals, such as a MP3 player, digital camera, printer or pen drive.
The USB-C to USB-A Converter provides convenient data syncing and charging to any USB-C device such as a smartphone, portable gaming console, MacBook, Chromebook Pixel or any similar late-model laptop with USB-C ports.
