USB-C® to DisplayPort™ Adapter Cable - 4K 60Hz

Connect a USB Type-C device directly to the DisplayPort input of a projector or display to transmit video and audio

OVERVIEW

The USB-C to DisplayPort Adapter Cable allows for a direct connection of a USB-C enabled laptop or device to a DisplayPort input on a projector or display—making it an ideal connectivity option when your laptop and display ports don't match. Perfect to use while in the office or when working from home.

This adapter cable supports resolutions up to 4K at 60Hz for enhanced high definition viewing. The cable form factor of this adapter provides a convenient and straightforward solution that eliminates the need for a separate adapter and cable, removing the possibility of failure points between your devices.

You can use this adapter cable with USB-C or Thunderbolt™ 3 enabled devices, and the plug-and-play feature means no need to worry about software downloads or driver updates.

FEATURES

- Supports resolutions up to 4K (4096 x 2160) at 60Hz for viewing high definition content
- Adapter in cable form for a single cable solution
- Compatible with USB-C and Thunderbolt 3 ports for more device connectivity
- Plug-and-play, so no additional software or drivers needed
