

ProDockEssential®

Universal USB-C Dock with HDMI®, DisplayPort™ and Ethernet

Display Video, Charge Devices and Transfer Data effortlessly from USB-C devices.

Features:

- ✓ 8K enabled for HDMI® & DisplayPort™ (Single Display MST)
- ✓ 4K enabled for dual HDMI® & DisplayPort™
- ✓ 2x USB 3.0 (backward compatible with USB 2.0 devices)
- ✓ Gigabit Ethernet
- ✓ 100W power delivery from USB-C port
- ✓ Storage compartment included for 10cm USB 3.1 Type-C Male/Male Gen 2 Cable
- ✓ Lightweight, portable design

Simple, Effective USB-C Connectivity

The ProDockEssential® Universal USB-C Docking Station provides a simple effective connectivity solution for charging, data transfer and video display from USB-C devices. Users can choose between 8K HDMI®, or 8K DisplayPort™ for video output, or use both at once (up to 4K 2160p @ 60Hz).

Display, Charge and Transfer Data with Ease

Featuring a handy stowable USB-C Cable and a longer additional cable, the ProDockEssential is highly portable and versatile.

Display high quality video simultaneously from HDMI® and DisplayPort™ whilst also delivering 100W power to USB-C equipped laptops, tablets, or smartphones.

Transfer data with ease and speed, with USB 3.0 ports, which are also backward compatible for USB 2.0 devices.

Portable and lightweight, the ProDockEssential is ideal for charging, data transfer, and video display in virtually any working environment.

Part Code: HYP-USBCPD-E4

- | | |
